

## Section 330 Consultants

This list is provided for your convenience. NACHC and FACHC take no responsibility for the quality of the work done by any individual or firm whose name appears on this list or for the outcome of any grant proposal prepared by them. It is up to each potential 330 applicant to interview the consultant and request references and or samples of their work to determine which consultant best matches their needs. Potential applicants may want to consider whether they are looking for someone to strictly write their grant or if they want to work with someone who also has experience in the community development process, which is more comprehensive. Potential new access points (NAPS) that are not satellites of existing FQHCs may want to consider finding someone with experience in getting health centers started from the ground up.

Please provide feedback to Erin Sologaitoa at FACHC [erin@fachc.org](mailto:erin@fachc.org) (850) 942-1822 for more information.
