

Orientation to Migrant Health

This is a one hour webinar or face-to-face training offered on-demand by FACHC to orient clinicians, staff, board members and others with a background and overview of migrant health in America.

We invite FQHC board members, providers and other staff to participate to learn more about this population.

Participants will understand:

- The HRSA's definition of "Migrant and seasonal farmworkers" and "Agriculture"
- The barriers and challenges farmworkers and their families face in accessing healthcare
- The history of the migrant health movement in the united states and in Florida
- State and national FQHC and migrant healthcare data and trends
